**Please find below and/or attached an Office communication concerning this application or proceeding.**

**Commissioner for Patents**

Applicants are advised that a reply to the restriction requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Applicants responded to Restriction/Election requirement (9/14/09) by electing a group I and a single species (example 161). However, applicants are required to list all the claims, which are readable by the elected species, in the claims of group I.

Applicants are given one month to respond to this notice from the mailing date.
